

DuraClear 2000 EZ-Tear™ Pillows (DC2)

DuraClear 2000 Void-fill EZ-Tear™ Pillows are made from enhanced linear low density polyethylene. DC2 is a specially formulated, linear low density polyethylene with superior durability, puncture-resistance, clarity and strength. These strong, durable air pillows are designed to protect your product while reducing packing and shipping costs.

AirPouch pillows feature our exclusive EZ-Tear Perforations; a patented design that enables quick and easy separation of the pillows allowing the operator to be more efficient and pack with less strain. These unique perforations let more air into each pillow to provide a better yield, lower cost per cubic foot, and less weight per package. Pillows are boxed to reduce changeover rate and allow for an increased run time. In addition, these clean and dust-free pillows do not require a knife or blade to slit the material.

User Benefits

- Pillow design increases productivity and saves on shipping costs
- Exclusive EZ-Tear™ Perforations greatly improve efficiency and place less strain on the operator
- Built for durability and strength
- Pillows are clean, dust-free and lightweight
- Knifeless/bladeless material
- Infinitely recyclable
- Boxed material reduces changeover and saves valuable warehouse space

Technical Specifications

Available Sizes: 8", 10" & 12" widths; Available in various standard lengths

Available Mil Thicknesses: 1.54 & 2.0 mil

Printing: Custom printing options available upon request

Unit of Measure: 4,000 linear feet (1.5 mil) & 3,000 linear feet (2.0 mil) of material per box; 24 boxes per pallet

Performance Data:	U/M	1.54 mil	2.0 mil	ASTM
Haze	%	12.6	14.2	D-1003
Puncture Resistance (Dart)	grams	233	310	D-1709

Above chart reflects nominal DC2 test data values. Actual results may fluctuate due to inherent process variation. Test data and mil thickness reflect DC2 material only. Certain minimum purchase volumes may apply.
