

## EarthAware Recycled EZ-Tear™ AirPouch® Pillows (RGT)

Recycled EZ-Tear™ AirPouch® Pillows are manufactured with at least 95% pre-consumer recycled content. These EZ-Tear pillows are designed to provide an environmentally responsible way to protect your products, while providing a cost-effective alternative to other sustainable products when color consistency is a secondary performance requirement. RGT is fully opaque and delivers good durability.

Recycled pillows offer excellent printing characteristics, and come in easily recognizable green shades for end-user awareness. The film is part of the EarthAware™ family of films, which provides environmentally friendly packaging solutions that reduce landfill waste. Like all polyethylene materials, EarthAware pillows can be repeatedly recycled.

AirPouch pillows feature our exclusive EZ-Tear Perforations; a patented design that enables quick and easy separation of the pillows allowing the operator to be more efficient and pack with less strain. These unique perforations let more air into each pillow to provide a better yield, lower cost per cubic foot, and less weight per package. Pillows are boxed to reduce changeover rate and allow for an increased run time. In addition, these clean and dust-free pillows do not require a knife or blade to slit the material.

### User Benefits

- Industry leading 95% pre-consumer recycled content\*
- Infinitely recyclable and biodegradable
- Recycled pillows offer cost-effective, sustainable packing material alternatives
- Exclusive EZ-Tear™ Perforations are packer-friendly and designed for improved efficiency
- Better air retention and improved yield reduce cost per cubic foot
- Convenient, fan-folded, boxed material saves valuable warehouse space and reduces changeovers
- Dust-free air pillows are clean and more lightweight than other packing products

### Technical Specifications

**Available Sizes:** 8", 10" & 12" widths; Available in various standard lengths

**Available Mil Thicknesses:** 1.54 & 2.0 mil

**Printing:** Stock printed with EarthAware™ logo for end-user awareness.

Custom printing available upon request.

**Unit of Measure:** 4,000 linear feet (1.5 mil) & 3,000 linear feet (2.0 mil) of material per box; 24 boxes per pallet

#### Performance Data:

	U/M	1.54 mil	2.0 mil	ASTM
Haze (with standard green tint)	%	54.4	Opaque	D-1003
Puncture Resistance (Dart)	grams	191	279	D-1709

Test data reflects RGT material only. Above chart reflects nominal test values. Actual results may fluctuate due to inherent process variation. Certain minimum purchase volumes may apply. \*Recycled film is made with pre-consumer recycled bag material.
