Pad-N-Pak[®] Workstation

*packaging that works to
keep you organized*

Create a Complete Packing Station with the Pad-N-Pak[®] Workstation

The converter for the Pad-N-Pak Workstation is a standard AutoPad[®] fitted with a curved chute to facilitate use with the workstation.

The converter is mounted below a packaging workstation table in one of multiple stand options. The table can be arranged to allow the pad to be fed from either the left or right side of the table.

The standard workstation converter includes an AutoPad II converter, remote box without pad counter and rear roll lifter

Versatile - several modes of operation allow for batch production or in-line, on demand use

Convenient - converter slides in and out from under the table for easy paper loading

Flexible - can use with an existing workstation table or with a Ranpak table

Adaptable - multiple stand options and various accessories and customizations available

Environmentally Friendly - 100% biodegradable, recyclable and renewable paper

Protection is in our nature[™]
