

Vertical Band Sealer Model 555

The 555 is a continuous vertical band sealer for applications requiring speed and convenience. It accommodates a wide variety of bag sizes and is available with an optional conveyor. Its head can be rotated 90° from vertical to horizontal. In addition, it can be raised and lowered so that the seal position is between 31" to 44" from the floor (horizontal) and 26" to 39" (vertical). casters make it easy to move.

Standard features:

- Seal width: 7/16"
- Sealing speed: 0 to 400" p/min
- Dimensions (with conveyor): 57"W x 61"H x 24"D
- Electronic proportional temperature controller, +/- 3° C range with maximum available temperature of 300° C.
- Digital temperature readout for precise temperature setting and monitoring
- Adjustable pressure on sealing jaw, cooling jaw and pressure roller

Options available:

- Pouch trimmer for trim before seal for neater finished package appearance
- Hot stamp printer for printing lot information on pouch
- Embosser for indent marking lot information on pouch
- Conveyor: 54" motorized
- Stainless steel frame and cabinet
